

Teaching Problems & Solutions

In groups, talk about the problems that teachers at your school have. Complete the list, and think of solutions on page 2.

(Please try to do this in English as much as you can, using your native language only if it is necessary.)

Common Problems

- Science/Math is a difficult subject for most students.
- Students come to class with different background/existing knowledge of the subject. (Some students know a lot; some students know very little.)
- Family/Social problems affect the students' performance in school.
- The school expects me to do many other tasks other than teaching.
- Students only study for subjects they have entrance exams in. Entrance exam subjects are:

- Many students don't . . .

- 1.
- 2.
- 3.
